

Community-Oriented Policing Officers

The intent of this program is to provide a variety of interesting and informative Community Service Programs within the city. The Crowley Police Department believes that providing improved professional police services will ease the fear of crime for the citizens and businesses in Crowley, thereby enhancing the quality of life for every one and contributing to economic growth within the city.

The Community Service Programs will include:

- Public Safety Programs
- Driving Safety Programs
- Bicycle Safety Programs
- Skateboard Safety Programs
- Pedestrian Safety Programs
- Crowley Area Teen Community Helpers (CATCH) Program
- Citizens Police Academy
- Neighbors on Watch
- Home Security Inspections

Crowley Area Teen Community Helpers Program

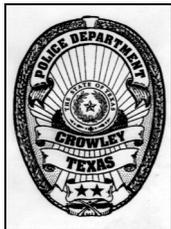

The Crowley Police Department's CATCH Program works primarily with juvenile offenders sentenced to community service hours by the Crowley Municipal Court for Minor Class "C" Misdemeanor offenses. One of the goals of CATCH is to reduce the recidivism rate among juvenile offenders while establishing a positive relationship with police officers.

The CATCH Program provides a strong emphasis on building self-esteem, consequences, and risk-taking/choice-making skill development while enhancing a sense of community pride by helping others.

Safety/Crime Awareness Programs

Safety and Crime Awareness programs are designed to provide our youth and adults in the community a greater knowledge for crime prevention and provide them with educational resources while interacting with the police.

These programs are offered at different times of the year and are organized by our Community Resource Officer. For information on upcoming subjects and dates, please contact our CRO at (817) 297-2276, ext 6205.

Home Security Inspections

A Home Security Inspection identifies weaknesses in a home's security and provides options for fortifying the home. At no cost to the homeowner, the Crowley Police Department's Community Resource Officer will visit and inspect a home for security shortcomings, providing suggestions to make the home less of a target for would-be thieves. A home security inspection may qualify homeowners for a discount on their Homeowner's Insurance policy.
