Ballistic Shields

PRIORITY:

Phioniii

JUSTIFICATION:

CPD is requesting to purchase four (4) ballistic shields for immediate deployment from police vehicles. Currently, the police department does not have rifle-rated ballistic shields for protection. Level III rifle-grade ballistic shields have ballistic technology that offers lightweight and usable protection against common rifle rounds. Ballistic shields are invaluable when officers have little to no cover and provide the additional ballistic protection needed in high-risk circumstances where officers are required to approach potentially armed individuals.

Flock Safety License Plate Reader Cameras

PRIORITY:

JUSTIFICATION:

The Crowley Police Department is requesting to purchase six (6) Flock Safety License Plate Reading Cameras to be placed throughout the city. Flock Cameras can be strategically placed in high crime areas and areas with high volumes of vehicular traffic. The Flock network is an invaluable tool which creates a two-prong approach in crime suppression and enforcement. The Flock network enables us to extend our ability to obtain investigative leads and assess crime "hotspots". The network also allows the department to take a proactive approach by providing real time alerts in the field when stolen or wanted vehicles travel through the city. By participating in the Flock network, the department will not only have access to their cameras, but to other cameras in the Flock network. Currently, there are thirty (30) agencies using this system around the metroplex, including our neighbors.

In addition, businesses and home owners' associations in the community have the option to purchase, at their own expense, cameras which can be accessed by the department to further assist in solving and deterring crime in their respective areas. Flock Safety mandates a thirty (30) day retention period for all footage to ensure that data not associated with a crime is automatically deleted and is unrecoverable.

Office Chairs

PRIORITY:

JUSTIFICATION:

The department is seeking to replace thirteen (13) office chairs. The majority of these chairs to be replaced are original to the building when the department moved to its current location in 2008. Chairs are suffering significant wear and tear to include holes, broken cylinders and lumbar support, and wheels no longer staying affixed to the chair. There are no longer replacements or "hand-me-down" chairs to reuse/reissue to the employees.

I bought my first Aeron's chair in 2003. I hesitated at the price at the time but it was worth every penny. I have no disk at the base of my spine and the mesh seat allows me to spend 10-14 hours a day in my chair without pressure on my tailbone. When I started a new job last year, I bought an Aeron's chair from Madison seating the first week because I was in pain using my employer's standard type office chair. Today my original chair broke. An old friend, gone. I'm here to buy another size C Aeron chair.

I've been eyeing these for a while and finally pulled the trigger. I was told it would ship in 10-14 business days, it ended up shipping in 3 business days. Chair arrived very well packaged and was easy to assemble. Looks absolutely new, if it was an open box, it must not have been open for long. I called with a question at 6:00pm CST, left a message and received a call back by 8am next morning. Could not have been happier

I bought two, one for home and one for the office. My co-workers are jealous and are asking for their chairs.

Just refurnished my office and purchased this chair for all my employees. I personally like the lumbar support over the posture fit but everyone seems to be happy. Thank you for the great service and quick delivery.

Great office chairs

We use these for over 100 people and our conference rooms. Great look and comfortable enough for 8 hrs. Only concern is that after 2 years the padding on the bottom tends to wear, but that seems to be with any office chair.

Don't waste your money

I bought 2 of these when they were 50% off about a year ago; so [\$] each. The first one; the Hydraulic post went through the bottom of the base and is making a rut in the hard floor mat. The other when you sit in it goes automatically down to the lowest setting. Then you have to adjust it to the appropriate height again. If you get up and sit back down the cycle repeats...
