

Annual Energy Consumption and Expenditures

Reporting of annual energy consumption and expenditures

The Texas 80th Legislature passed HB 3693 (Government Code § 2265.001(b)) setting forth new energy-efficiency requirements and energy usage reporting requirements for governmental entities in the state of Texas. The statute requires governmental entities to report and post the metered amount of electricity, water, and natural gas consumed and the aggregate costs for those utility services. Below is the annual consumption of energy for the city of Crowley.

Utility Consumption

Fiscal	Electric	Electric	Natural Gas	Natural	Purchased	Water	Total
Yr	Consumption	Cost	Consumption	Gas	Water	Cost	Expenditure
Oct 1	(kWh)		(CCF)	Cost	(Gal)
