

Fire Prevention Office

Functions

The Crowley Fire Department Fire Prevention Office is dedicated to preventing loss of life and property damage caused by fires. We do this by conducting regular fire inspections of:

- Businesses
- Daycare facilities
- Foster homes
- Other properties within the city of Crowley

Duties

A fire prevention officer performs a variety of duties related to fire awareness and safety. In this career, you conduct inspections of buildings to ensure all fire codes are being followed, enforce any code violations, conduct investigations after a fire has occurred, and develop education and training functions. These functions are for property owners, other fire prevention officials, or community members. A fire prevention officer may also assist fire and emergency response teams when there is a fire in the community.
