

Teen Services

Our staff and volunteers desire to help our Teen patrons reach their goals. We aim to provide them with exceptional customer service and individualized attention that will help them find the right answers, experience new things and cultivate personal growth.

Teens are encouraged to visit the library, utilize its resources and participate in many of the activities designed specifically for patrons ages 13-17. It's a great place to do homework, hang out and read a great book or look for that next big reading adventure. Drop in and see what's up at your library!
