

Right-of-Way Permitting

The City of Crowley Public Works Department requires all contractors working within the city limits to submit a ROW permit application. There is no cost for the permit.

Complete the ROW application (PDF link below) and return to [astubblefield \[at\] ci.crowley.tx.us](mailto:astubblefield@ci.crowley.tx.us) with copies of plans and/or a map along with Texas 811 reports that show where you will be digging. Once received, staff will review the request; mark water and sewer lines; and return a signed copy of the approved permit to the applicant.

Please note that we require the same 48-hour notification as Texas 811 prior to digging, and ask that you do not start working until your permit has been approved.

Please direct your questions or concerns to Water /Wastewater Manager Randal Manus at 817-297-2201, ext. 3210, or [rmanus \[at\] ci.crowley.tx.us](mailto:rmanus@ci.crowley.tx.us).
